

ExtremePro Speed Oven with Touchscreen - NP-MWO-T

Quick Overview

- Compact design with space-saving footprint, sleek appearance, and user-friendly operation
- 8.6L gross capacity cooking chamber with up to 10 inches of cooking area
- Combines microwave and thermal radiation for faster, more even cooking
- 9 pre-set cooking programs
- Dual heating elements and microwave technology enable rapid cooking: Upper/lower heating elements ensure even browning, while microwave accelerates core heating, greatly reducing cooking time and enhancing efficiency.
- Features a 6.8-inch touchscreen with an intuitive interface for precise control
- Stores 100+ programmable recipes, each customisable with 5-stage cooking programs with independent control of heating elements and microwave power
- Energy-saving mode maintains low-power standby during idle, reducing consumption and with instant recovery to cooking temperature.
- Precise temperature setting ranges from: +170 to +240°C
- Equipped with a preheat function for added convenience
- For the Heat Radiation function, there are five cooking setting levels: Low, Medium, High, Strong, and Off. For Microwave cooking, the setting options are On or Off
- Triple-fan cooling for the magnetron and internal components boosting reliability, extending lifespan, and keeping performance steady during extended use
- USB port enables recipe upload/download for centralised management
